

Month 4 – Hexiestar tamed – EPP block designed by Reene Witchard

This month's block is approximately 12" finished.

I've been very lazy with this month's block due to ongoing health problems. I've used an old favourite, the Hexiestar and "tamed" it by adding corners. The block has been modified so it's not a straight out rip-off of the original. I'm going to take some photographs of the various stages of this block going together and I'll post these on the blog as soon as I have done them, please bear with me if it takes me a while, my shoulder and neck are in bits. It's a Bank holiday weekend here in the UK so I'm hoping to get some down time for hand-sewing.

The block will work together in multiples if you're feeling productive.

We'd love to see your version using #nelliesnicetiesmysterybom on Instagram or added to our Flickr Group – Nellie's Niceties Made Me Do it.
